ABOUT ME

Computer Science student passionate about web development and technology, with experience building responsive applications through academic and personal projects. Motivated to learn, contribute to real projects, and grow professionally within a collaborative environment.

EDUCATION

B.Sc. in Computer Science

Frederick University Of Nicosia – Expected Graduation: 2027

PROJECT EXPERIENCE

Full-Stack University Project

- Developed SkillShare, a community platform connecting instructors and learners for sustainability workshops.
- Implemented booking management with capacity controls.
- Added attendance tracking and rating features.
- Designed simple analytics for workshop participation and environmental impact.

Drag & Drop Task Manager

- Created a multi-column task manager with real-time drag-and-drop functionality.
- Implemented add, edit, and delete actions.
- Used the Web Storage API for client-side data persistence.

Form Validation Project

- Built custom client-side form validation using JavaScript.
- Ensured accurate user input.
- Prevented invalid submissions through dynamic checks.

Responsive Multi-Section Business Website

- Developed a responsive website using HTML, CSS, and Bootstrap.
- Built reusable UI components.
- Applied grid layouts and interactive elements.

Weather Application

- Created a responsive weather app using JavaScript and REST API integration.
 - Fetched real-time weather data.
 - Rendered results dynamically in the DOM.
 - Used localStorage to store user search history.
-
